VALUE ADDED COURSE - I

OBJECTIVES

- To draw shapes and lines and to move the surfaces back and forth for turning them into 3D forms quickly and accurately.
- To apply drawing scales, and insert dimensions, graphics, further to learn the sketch up for building design applications.
- To view and presenting models in 3D and to make everyday shapes, from 2-D plans, elevations and sections.
- To create rectangles, circles, polygons, arcs and also for moving, scaling and rotating objects with the process of applying, creating and editing materials.

COURSE CONTENTS

3-D modeling using sketch up softwares.

OUTCOMES

At the end of the course, students can:

- Apply basic 3-D modeling and apply basic concepts to create simple building models.
- Create everyday shapes, from 2-D plans, elevations, create rectangles, circles, polygons and arcs.
- Move, scale and rotate objects with processes of applying, creating and editing materials.
- Export in 2D and 3D and Map textures on straight and curved objects.

VALUE ADDED COURSE - I (PC HARDWARE AND TROUBLESHOOTING)

OBJECTIVES:

- To explore the various hardware components on a computer
- To know about graphics card and types of CPU
- To enhance the knowledge in system diagnostics
- To exploit the problem solving techniques
- To learn the ways of assembling the PC

TOTAL: 15 PERIODS

COURSE CONTENTS

- 1. Installation of Hardware Components and Identifying the Memory
- 2. Installing Graphics cards, USB and Configuring it for better performance
- 3. Virtual Memory Configuration
- 4. Registry Cleaner, Spyware Detector and Diagnosing Hardware failures
- 5. Configuring BIOS
- 6. Troubleshooting and Isolating Computer Problems
- 7. Working with Motherboard and CPU
- 8. Assembling Motherboard
- 9. Fault detection after assembling

OUTCOMES:

Upon completion of the course, students will be able to:

- Explore the various hardware components on a computer
- Know the graphics card usage and types of CPU
- Enhance the knowledge in system diagnostics
- Exploit the problem solving techniques
- Learn the ways of assembling the PC

Sir,

Sub: Requesting permission for conducting value added courses - Reg.

We would like to bring to your kind consideration that Tubestudy technologies, Coimbatore has assigned MoU signed with our institution on 13.02.2021 to enhance the academic excellence. In connection with this Tubestudy technologies offer soft skill courses to the II year Electrical and Electronics Engineering students at the end of the semester. Further we kindly request you to accord permission to conduct soft skill course to the third year Electrical and Electronics Engineering students.

VALUE ADDED COURSES - I (SOLIDWORKS)

OBJECTIVES

- To learn the individual features and functions of SOLIDWORKS, thereby emphasizing processes and procedures for completion of any task.
- To understand the principles of technical drawings to create different 3D models.
- To extend a knowledge of parametric 3D models to design and build mechanical parts and assemblies.
- To know the setup sheets for plotting with text, dimensions, and details.
- To be familiar with Parametric Modeling to manufacturing and engineering concepts.

COURSE CONTENTS

- **2D DRAFTING**
- 3D-MODELLING h.
- SURFACE CREATIONS AND ASSEMBLY C.
- **DRAFTING & DRAWING** d.
- SHEET METAL FEATURES e.
- f. PHOTO WORKS
- **PROJECT** g.

OUTCOMES

At the end of this course, learners will be able to:

- Demonstrate competency with multiple drawing and modification commands.
- Create three-dimensional solid models.
- Build three-dimensional assemblies incorporating multiple solid models.
- Apply industry standards in the preparation of technical mechanical drawings.
- Make simulation of the assemblies incorporating multiple solid models.
